

KIM

Are you frustrated by self-entitled, easily manipulated youth?
Then, you can be the change!

What if **children** started **living with purpose and passion**,
embracing the role they need to play in their community and
stepping up to lead with compassion in a hurting society, **a
voice of reason in times of chaos.**

*"We worry about what a child will become
tomorrow, yet we forget that he is someone
today." – Stacia Tauscher*

We create a safe environment for children to :

Discover their Godly **identity and intimacy in relationship**
with their heavenly Father.

Find healing and restoration in a world where parents are
absent and hurting.

Be equipped to stand for good moral choices in modern
society.

Be empowered to BE the change where they are.

*"Train up a child in the way he should go, And
when he is old he will not depart from it." – Proverbs 22:6*

We have taken **hundreds of children** through this process
since 2006. We have seen **children's demeanour change**
from shy and broken to **confident, inspiring leaders**. They

take **responsibility** for their calling and purpose and **step up to “Be the Change”** in their community. We have seen how families **and communities are impacted** through this process. We have seen how **churches and their children’s ministries explode with growth** after they bought into the vision.

Influence a child’s worldview and morality and see families, schools, communities, cities and even nations change for the better! – Karen Massyn
